The Coming 4th of July.

Our citizens have stirred in this matter, we will be seen by the proceedings published in our paper to-day. It is greatly to be hoped that all our citizens will feel the binding force of '76, sufficiently that when the Finance Committee announced that they will draw into their pockets liberally, and thus aid in this laudable effort to revive the latent spirit of our Independence, and Revolutionary achievements freshly in the minds and hearts of our People.

We want an "Old Fashioned Celebration," and we can have it, if the usual voice of our Townsmen shall say it—and say it in the energy and zeal of the stirring breath of the latent spirit of our Ancestry, which proclaimed "Liberty or Death!"

The Weather.

The wind keeps constantly in a cold quarter—blowing from the North, or North-West; and its chilly blast, perpetually keep our over coats in demand, and makes us all readily huddle around our stove fires, which seem as grateful as in February or March. To-day, the 10th of June, we have a deep, drizzling rain and snow from the North-west, and all heads are pinched with its icy grasp. The howling wind "howls around our house," bellowing a coming frost, which may flash up the death and the devastation it has already begun on the 8th last. The sun has hid her warming and smiling countenance, and the mild zephyrs have ceased to blow, and the south winds have refused their warmth, in our latitude; and thus the very elements have declared war upon the hills of the landmass, and the earth is becoming parched and sterile, while the heavens present their cold and icy canopy over our heads, chilling the very last ray of hope of plants springing from the lap of Earth. The North and Heavens are at war, and the Nations are talking pictures. As late from him and down the tender herbage and the fruit, so the Allies are slowly springing upon each other; and thousands who are young and vigorous and budding with the glow of promise for usefulness, are mown down in the midst of their rising hope, and are, as if they never had been. Who can strain the signs of these things—and elsewhere we get our "head and butter," if such barbarisms prevail throughout the growing year!

It is a singular fact that the readiness of the "woman folk," to get a glimpse of any well-dressed criminal, is always greater than with the men. The Chicago Democrat is making this lamentable fact very, in this city, also, the rush of ladies to see Jupperts, convicted of a most diabolical murder upon a female was astounding. Among the prisoners in the jail, Jupperts appears to be the favorite with the ladies who vie with each other in the privilege of conversing with him.

The Washington correspondent of the New-York Tribune states that it is the intention to dispatch a steamer, that England will offer her mediation after the first important battle shall have been fought. If it be accepted, Napoleon will return to Paris after securing conditions talking towards the submission of Italy. If refused, the indication is that the war will be general.

Mr. Dallas's latest answer Lord Napier's arrival at London. While the involvement of England in the war was regarded as not immediately probable, such a contingency was generally apprehended as likely to take place ultimately.

—The Harlan Lane, the Lady of the White House, with her suite, made a visit to West Point on Monday. The party came up to the United States steamer which leaves the name of Mrs. Lane, and was met by the officers and cadets in a very flattering manner.

An Old Fashioned Fourth of July Celebration in Batavia.

A GOOD TIME EXPECTED!!

A large and enthusiastic meeting of our citizens was held at the Eagle Hotel on Tuesday evening at which resolutions were adopted and committees appointed to make arrangements to celebrate our forthcoming Anniversary of our National Independence, in an "old fashion" manner.

Orange Allen was called to the Chair and Oscar C. Dibble was appointed Secretary.

In a few brief remarks several Gentlemen proceeded to state the object of the meeting, to make arrangements for the celebration of the forthcoming Fourth of July.

On motion, seven Gentlemen were chosen to act as Finance Committee, for the purpose of visiting the Citizens and inviting them to subscribe a suitable amount to defray the expense necessary to get up an "OLD FASHIONED CELEBRATION," the following named Gentlemen composed the Committee.

A. E. Warner, A. N. Weller, George Knowles, M. G. Soper, John Kinyon, A. Bowen, Henry Galt.

The following Gentlemen were chosen to serve on the different Committees:—John Kinyon, N. T. Smith and B. G. Tisdale, Committee to make arrangements with the Indians, to join in the Celebration.

M. F. Robertson, Geo. Bowen and O. B. Bolton, to obtain an Orator for the occasion.

N. T. Smith, H. McCormick, and K. L. Kinyon, Committee on Fire Works, and to see the Firemen.

A. J. McWain, Jas. Showerman, Robt. Foss, Ira Vaughn and Mr. Morse, Committee on Music.

Peter Brault, E. H. Norton and Smith Frost, Committee on Dinner.

Jeremiah Hascall, L. S. Kichham, D. D. Waite, M. L. Hickox and J. M. Willett, Committee on Printing.

Frederick Follett, S. A. Wilson, H. M. Warren, John Kinyon, Geo. H. Halpin, Ernest Dodge, Wilbur Smith and B. G. Tisdale, Committee on the arrangements of the Day, generally.

The Committee on Printing were particularly instructed to obtain 150 printing of 500 two sheet bills, where they could get them about the cheapest, (in Batavia.)

The Committee on Music were particularly instructed to hire the *Bassett Brass Band*, *Vaughn's Brass Band*, of La Hoy, the *Indian Brass Band*, of Tonawanda, and *Capt. Gardner's Martial Band*.

The Daily & Weekly Papers were requested to publish the proceedings of the meeting.

The meeting adjourned until Tuesday Evening, (June 14th,) at the same time and place.

The citizens of Batavia and the surrounding Towns are cordially invited to attend, and enjoy the festival of the occasion. A good time may be expected.

Further particulars will be given in the village Papers and the *Large Posters* for the occasion.

ORANGE ALLEN, Pres.

OSCAR C. DIBBLE, Sec'y.

The N. Y. Journal of Commerce says the largest mirror ever imported into this country has been received from Paris, for the Fair Avenue Hotel, now in process of completion in New York. Its dimensions are 84 by 125 inches, and its cost, exclusive of frame, about \$1,500. No ship was large enough to freight it between docks, and so it was brought as part of a deck load. This piece is to be placed in the dining room, opposite the entrance from the main corridor, where it can be displayed to the best advantage. The cost for freight and other charges for this large hotel mirror is about \$14,000; the cost of silvering and framing will increase the amount to over \$20,000.

Not Many More Trains.—Down on the "Eastern Shore" of Virginia there is an officer, who is also his own companion and provision, who makes occasional voyages along the coast to Norfolk as captain of the schooner Polly, who presides on Sunday, teaches school on week days, and still finds time to take care of a wife and sixteen children.

Mon. Stephen A. Douglas.

This eminent Senator and distinguished citizen arrived in Batavia from the south late on Monday evening. He took his old quarters at the Tremont House.

Yesterday morning, bright and sunny, he was up and out, and was hailed upon by many personal and political friends. He never looked better, being in excellent health and spirits. He is full of life and of hope. His address during the winter at Washington, have not even him in the least; nor has the opposition he has encountered, which, however, is now pretty much broken, worried him to any great extent or weakened his confidence in his own position and in the principles of the Democratic party. At the south—through which section of the country he has just passed—he was met uniformly with the same warm kindness and friendly cordiality that have ever been accorded to him by his true sons. There are not many men in any southern State, who are so well liked and so well respected as he is, and he is willing to hazard the integrity and ascendancy of the Democratic party, and the peace of the Union, by violating the pledge made to the country in the Cincinnati platform.

It is Senator Douglas's intention to spend two or three weeks in Chicago, at the present time, and then he will be absent for a short period; after which, for the most part, he will be in Chicago and other parts of the State until about December.—Chicago Times.

The North Bridgewater (Mass.) Gazette reports that Mr. Henry Harrows, of North Easton, is suffering from an accident which may serve as a warning to all who are in the habit of picking their ear, with a pin. A few weeks ago he dropped a pin into his left ear, and physicians have labored in vain to reach and remove it; inflammation has taken place, and it is feared it will terminate his life.

The New York papers announce that a proposition has been made by responsible parties to lease the Erie road for a term of ten years. The offer is to pay the bondholders \$1,000,000 the present year, and \$1,000,000 the second year, \$2,000,000 the third year, and \$2,500,000 for the remainder of the term. The latter sum would be sufficient to pay the interest on the entire debt, and a dividend on the stock. The parties offer to give security to keep in proper repair and be subject once a year to the investigation of a committee under the instruction of the creditors of the company.

Garibaldi, the white-haired leader of the Italian revolution in the army of Sardegnia, was exiled from Italy in 1849, and found refuge in the United States. A western exchange says that he kept a coffee house in Cincinnati a few years ago, and retained honor by the deed. He is now a General in the Sardinian service, commanding officers thousand men, and to a great extent controlling the destinies of the States.

The Traction (N. J.) American states that the trial of Harden, the wife poisoner, will not take place till September. He has preached two or three Sabbaths in the jail where he is confined, and large numbers of ladies have flocked to hear him. Harden professes that he is entirely innocent, and pretends to be earnestly engaged in study, designing, when liberated to prosecute his ministerial work.

The remains of the late Alexander Hamilton, buried thirty-seven years ago in the New Haven Cemetery, were a day or two since exhumed for the purpose of being removed to Balldgeport, (where his son's remains have within a few years been deposited.) The coffin being of mahogany, was found to be almost perfectly sound—so much so, it was said, the nation could, or did, stand upon it to see it. The skeleton appeared perfect.

The workmen employed on the Baltimore City Railways were compelled to stop work on Thursday by a crowd of men who demanded work for themselves, and a price beyond what they ordinarily have been receiving, and they declare that no further progress shall be made in the road unless they are furnished with work at their demand.

The great and immortal Planchette was a little vulgar after all. Like many other foreign nobilities, she left the country without paying her board bill.—Was this her agent, it is in prison on account of her extravagance. The bill was drawn the Evening House in New York, and the amount she forgot to settle was \$1,200, for the boarding of seven persons four weeks.

—It is announced that Roger A. Pryor, retired from the Washington States to pursue his profession in Petersburg, Va. It is thought probable that Mr. Pryor will be made his next post in the new made administration.

—At Chicago, Monday, the Tremont House furnished its guests with bread made from new wheat, raised in Mississippi. It cost only 20¢ per barrel.

The way the body of the railroad conductor drowned in Newbury, Vt., pond, some days ago, was found, was thus: Some quicksilver was put in a loaf of brown bread, and the latter placed in the water; immediately it started off like a live animal, against a strong current of wind and waves, and went as fast as some men who followed it could row a boat, till it came to where the body was found, which was sixty feet under water, and there stopped!
